Partnership arrangements and the role of Regional Partnership Boards

- LAs and the LHB must work together as a partnership board to improve outcomes and the well-being of people, as well as improving the efficiency of service delivery.
- This will be informed by the combined population assessment report.

Nodau allweddol y trefniadau partneriaeth:

- Gwella gofal a chymorth, gan sicrhau bod gan bobl fwy o lais a mwy o reolaeth;
- Gwella deilliannau a gwella iechyd a llesiant
- Darparu gofal a chymorth cydgysylltiedig sy'n canolbwyntio ar unigolion;
- Defnyddio adnoddau, sgiliau ac arbenigedd yn fwy effeithiol;
- Sicrhau capasiti digonol a gwasanaethau o ansawdd da i ymateb i anghenion pobl yn y rhanbarth.

Key aims of the partnership arrangements:

- Improving care and support, ensuring people have more say and control;
- Improving outcomes and health and well-being;
- Providing co-ordinated, person centred care and support;
- Making more effective use of resources, skills and expertise;
- Ensuring sufficient capacity and good quality services to respond to the needs of people in the region.

Cefnogi Cyflenwi – gan gynnwys sefydlu cronfeydd cyfun

- Bydd dull integredig o gomisiynu a chyflenwi gwasanaethau o gymorth i’r awdurdodau lleol a’r Bwrdd Iechyd Lleol gael mwy o ddylanwad ar ffurf gwasanaethau a’r ffordd y cânt eu cyflenwi.

Supporting Delivery- including establishment of pooled funds

- An integrated approach to the commissioning and provision of services will assist both the local authorities and Local health Board to exercise greater influence over the shape and delivery of services.

Mae’r dull integredig hwn wedi’i gefnogi gan y gofyniad yn Rheoliadau Trefniadau Partneriaeth (Cymru) 2015 i sefydlu **cronfeydd cyfun**, o **6 Ebrill 2016**, ar gyfer:

- cyflawni swyddogaethau cymorth i deuluoedd;
- swyddogaethau a gyflawnir ar y cyd **o ganlyniad i asesiad** a wneir o dan a14 o’r Ddeddf.

Ac o **6 Ebrill 2018** ar gyfer:

- cyflawni swyddogaethau llety cartrefi gofal.

This integrated approach is supported by the requirement of The Partnership Arrangements (Wales) Regulations 2015 to establish, from **6 April 2016**, **pooled funds** in relation to:

- the exercise of family support functions;
- functions that will be exercised jointly **as a result of an assessment** carried out under s14 of the Act.

And from **6 April 2018** in relation to:

- the exercise of care home accommodation functions.

- Bydd partneriaid yn parhau i fod â chyfrifoldeb statudol am y swyddogaethau y maent yn eu cyflawni o dan yr holl drefniadau cronfa gyfun. Dylai'r cytundeb partneriaeth gynnwys trefniadau llywodraethu perthnasol, gan gynnwys atebolrwydd, prosesau penderfynu a sut y bydd cyllidebau cyfun yn cael eu rheoli.

- Partners will retain statutory responsibility for their functions carried out under all pooled fund arrangements. The partnership agreement should include relevant governance arrangements including accountability, decision making and how pooled budgets will be managed.

How we developed it

Cwm Taf pilot area

- One group looking at population assessment and local wellbeing plans (Wellbeing Future Generations)
- Learning from their process to develop the toolkit
- Toolkit will not advocate one process over another but will draw on good practice in the Cwm Taf area

Learning from other partners (LAs, LHBs, inspectorate, universities and third sector)

Steering Group meets every two months to advise on development
