Our 2024 survey of the social care workforce is now live!

Just like in 2023, we're asking social care workers to answer questions about things like health and well-being, pay and conditions, and what you like about working in the sector.

We want as many of you as possible to complete the survey, across a wide range of social care roles.

Take part in the 2024 Have Your Say survey

Tell us what you think about working in social care.

The survey is being hosted on the [Online Surveys](#) platform and will be open until 22 February.

Telling us what you think will help shape the support we and our partners offer, so don't miss your chance to have your say.

Everyone who completes the survey will be entered into a prize draw to win a £20 shopping voucher.

Tracking workforce trends

We're carrying out this survey again so we can start to monitor trends in what people think about working in social care.

Even if you've left the sector, we'd love to hear about your experiences.

We also want to find out more about some of the themes that emerged from last year's survey to give us a more detailed picture of what's happening.

One of the ways we'll do this is by holding interviews and focus groups with workers and employers. If you'd like to be involved in the interviews or focus groups, please e-mail the research team at SCWsurvey@bathspa.ac.uk.

Working with partners

[Bath Spa University](#) and the [British Association of Social Workers \(BASW\)](#) are working with us to carry out this research.

All of your answers will be anonymous and we'll share the findings on our website after the results have been analysed.

Get involved with promoting the survey

We're asking employers and other organisations to help us raise awareness of the survey and to encourage as many of the social care workforce as possible to take part.

We've put together some tools you can use to promote the survey, including a poster to display in your workplace, news copy to send to colleagues, and assets to share on your social media or internal channels.

All of these tools are available in English and Welsh and you can download them by clicking on the link below.

Discussing the survey during meetings with colleagues would also help us reach as many people as possible.

What were the results of the 2023 survey?

We announced [the results of our 2023 pilot survey](#) in October, which showed that social care workers feel valued by the people and families they support, but also undervalued by the public and underpaid for the work they do.

If you'd like to find out more about the 2023 workforce survey, [you can read the full report here](#).

Need more information?

If you have any questions about the 2024 Have Your Say survey, we provide some answers in our [frequently asked questions](#).

You can also get in touch by e-mailing SCWsurvey@bathspa.ac.uk.
