Introduction

We are **Social Care Wales**. We work to make sure people have good quality social care and support.

Gofal Cymdeithasol **Cymr**ı Social Care **Wales**

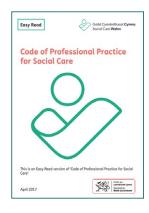

Social care means services that help people with their daily living. For example:

- Personal care
- Care homes
- Nursing homes
- Supported living
- Day Centres

You can watch our video explaining more about social care here: <u>www.youtube.com/</u> <u>watch?v=7DvLrs8dJsY</u>

We are updating the **Code of Professional Practice for Social Care Workers**.

The Code of Professional Practice for Social Care Workers

The **Code of Professional Practice for Social Care Workers** is a list of statements.

The statements describe how social care workers must work.

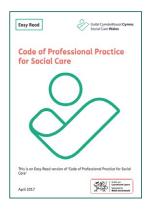

If someone thinks a social care worker has not followed the Code, we can investigate.

This involves checking the social care worker has the:

- skills,
- knowledge,
- and values to do their work safely and well.

You can read an easy read version of the current Code of Professional Practice for Social Care Workers here: <u>socialcare.wales/dealing-with-</u> <u>concerns/codes-of-practice-and-guidance</u>

The Code will help people receiving care understand:

how a social care worker should behave towards you,

• and how employers should support them do their job well.

About this consultation

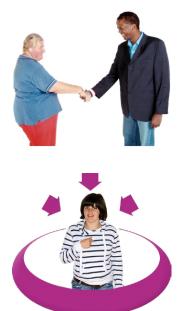

We want to know what you think about the changes we want to make.

We want to make them clearer and easier to follow.

We want the changes to help social care workers better understand:

• How to act in the way expected of them. In person and online.

- How important it is to have good relationships with people, families and carers.
- Providing care that focusses on a person's strengths, and what they **can** do.
- The importance of supporting people to do what matters to them.

We want to hear from anyone who has an interest in social care. Especially:

- People who work in social care in Wales.
- Employers.
- People who use care and support services.
- Families and **unpaid carers** people who provide a lot of care for someone due to age, illness, disability or health condition.
- Volunteers.

We learned that the Welsh language versions of the Codes are not very clear and easy to understand.

We would also like to hear from Welsh speakers. We want to know what we can do to make the Welsh language versions clear and easy to follow.

Changes to the Code of Professional Practice for Social Care Workers

There are 7 sections in the Code of Professional Practice for Social Care Workers.

You can read an easy read version of the current Code here: <u>socialcare.wales/dealing-with-concerns/</u> <u>codes-of-practice-and-guidance</u>

We have explained the changes we want to make in the next part of this document. There are questions to answer after each section.

What we want to change in each section

Section 1 - A social care worker will help you with your rights. They will listen to what you want

Main changes:

• We have changed '**you must**' to '**I must**'. We want workers to understand that they are responsible for following the Code.

• We have focussed more on people's rights. And on care that focusses on a person's wants and needs.

• We have focused more on standing up to unfair treatment. And making sure people get care in the language they choose.

Section 1 – New wording

I must respect people's views and wishes. I must support people's rights

Statements

- 1.1 I must work with and support people. I must work in ways that puts the person's needs and wants first. I must respect them.

Diversity means we are not all the same. For

and cultures, have different abilities and

example, we come from different backgrounds

Inclusion means everyone can take part, and everyone has a fair chance.

Discriminate or **discrimination** means treating someone badly or unfairly because of things like their sex, race, religion, disability or sexuality.

1.3 I must stand up against and report any discrimination. I must stand up for the rights of people, their carers, families and my colleagues.

1.4 I must support people and carers to share their views and choices. I must support them to communicate in the way they choose. And in the language they choose.

• We have made the wording stronger about keeping people's information private.

 We have made the wording stronger about professional boundaries. And about accepting gifts. Workers must explain the rules to people and families.

Professional boundaries are the limits in a relationship between a social care worker and a person and their carers and family. For example, social care workers should not use someone's home as their own.

Section 2 - New wording

I must do what I can to gain and keep the trust of people and carers

Statements
